

General Medicine, The-Post Hospitalist Company, is committed to improving the quality of patient care while lowering your facility's readmission rates. Through early assessments and interventions coupled with regular on-site monitoring, our post-hospitalists give each patient the attention and support they truly need.

Our post-hospitalists have a 10-year documented average readmission rate of 10.4%.

National Average 30-Day Readmission Rates ¹ 23.8%
 Reduction from National Average 56%
 ROI for Payors more than 340%

<u>Year</u>	<u>GMPC Rate</u>
2004	18.19%
2005	17.70%
2006	11.17%
2007	6.54%
2008	8.78%
2009	8.26%
2010	10.83%
2011	6.40%
2012*	13.84%
2013	12.40%
2014	8.23%

* 2012 increase due to influx of over 3,000 new pts added in MCO Plans

¹ 30-Day Readmission Rates review dual-eligible beneficiaries, as determined by CMS. Most recent study conducted in 2010. <http://www.academyhealth.org/files/2012/sunday/brennan.pdf>
